# ZACC

# X1000

#### **PROFESSIONAL ROBOT VACUUM CLEANER** FOR COMMERCIAL AREAS

20,000 Pa suction power with an area performance of 250 m²/h and a runtime of up to 6 hours

#### **AREAS OF APPLICATION**

The X1000 can be used in the following areas:

- Restaurants
- Retail

- Hotels
- Educational facilities
- Warehouses

#### **PRODUCT HIGHTLIGHTS**

| Intelligent navigation   | Immediately  | Multi-inlet cyclone   |
|--|--|---|
| and obstacle avoidance   | ready for use  | separating dust bin   |
| <ul> <li>LiDAR with 12 m detection range</li> <li>6-axis inertial sensor</li> <li>ToF sensors</li> <li>3D ToF sensor</li> <li>Ultrasonic sensor</li> <li>Dual camera</li> <li>AI obstacle avoidance</li> </ul> | <ul> <li>No complicated setup necessary</li> <li>Maps the cleaning area independently</li> <li>Easy to use</li> <li>5 inch touch screen</li> </ul> | <ul> <li>31 large dust bin</li> <li>Multi-inlet cyclone<br/>separation system</li> <li>HEPA 13 fine particle filter</li> <li>No consumables<br/>(dust bags) required</li> </ul> |
| Powerful   | Powerful cleaning  | Product   |
| batteries  | capabilities   | design  |
| • 2 lithium-ion batteries  | • 300W nominal power   | • Modular design  |

- 6 hour runtime
- Batteries work separately
- Automatic recharging

- 300W nominal power
- 20,000 Pa suction power
- Vacuums up dirt particles up to 16 mm in diameter
- Cleaning width of 37 cm
- Dual roller & direct suction
- Modular design
- With a few simple steps:
  - Change batteries
  - Change the vacuum module • Empty the dustbin

## ZVCO

### **TECHNICAL SPECIFICATIONS**

| Basic data                           | Size (mm)                            | 376 x 372 x 365 mm   |
|--------------------------------------|--------------------------------------|--|
|                                      | Net weight                           | 11.3 kg  |
|                                      | Buttons on the case                  | One button   |
|                                      | Area performance                     | 250 m²/h   |
|                                      | Display                              | One 5.0-inch touchscreen panel<br>(with multifunction) on the top, one LED<br>indicator on the front |
|                                      | Dustbin capacity (I)                 | 3 l, multi-inlet cyclone,<br>separate dustbins   |
| Power supply<br>and suction power    | Rated voltage                        | 25.2 V   |
|                                      | Rated power                          | 300 W  |
|                                      | Suction power (kpa)                  | Normal: 8~9 kpa, Maximum: 20 kpa   |
| Running time                         | Battery                              | 2*112,1 Wh lithium battery packs,<br>2 battery packs included  |
|                                      | Cleaning time                        | Up to 360 min.   |
|                                      | Cleaning area<br>in one full cycle   | Up to 1000 m <sup>2</sup>  |
|                                      | Type of charging                     | Automatic charging by camera detection   |
| Navigation and<br>obstacle avoidance | Navigation system                    | Laser + 2 camera systems + gyro  |
|                                      | Obstacle avoidance                   | 6 ToF sensors  |
|                                      | Climbing ability                     | 25 mm  |
|                                      | AI object<br>recognition             | Can identify shoes, cables, socks, books, towels, bottles, trash bins, flowerpots, etc               |
| App functions                        | Mapping                              | 2D / 3D maps   |
